THE CREATIVE REPORT
Human craft meets AI.
New tools, fresh perspectives and extraordinary creative possibilities.

BRAND IDENTITY • APPAREL GRAPHICS • CREATIVE DIRECTION

PORTFOLIO

GRAPHIC DESIGNER ON THE RUN

The next creative chapter

AI REVOLUTION / CREATIVE EVOLUTION

The AI revolution opens extraordinary possibilities for design. Evolving with it means learning new tools, exploring new ways of working and bringing experience into a changing creative world.

Human craft. New possibilities.

DESIGN IN A NEW REALITY

AI offers new ways to explore ideas, develop variations and imagine what comes next. Integrating these tools with a designer's eye turns possibility into purposeful visual work.

Evolve. Explore. Create.

CRAFT / CURIOSITY / OPPORTUNITY

The opportunity is to keep growing: combine years of craft with curiosity, experiment with AI and shape a practice ready for the future. New tools expand what we can imagine and make.

FASHION APPAREL GRAPHICS
- BRAND-SIDE ART DIRECTION

FASHION / APPAREL GRAPHICS / ART DIRECTION

A shared vision. A distinct identity.

Typography, illustration and colour shape a recognisable visual language for apparel. Graphic treatments connect individual pieces, giving a collection both variety and a clear identity.

Brand-side art direction brings the details together: concept, placement, palette and the relationship between garments. Each graphic contributes to the wider story of the collection.

FASHION APPAREL GRAPHICS
FREELANCE

FASHION / APPAREL GRAPHICS / FREELANCE

Individual style. Graphic expression.

Expressive lettering, illustrated characters and vintage references bring personality to everyday apparel. Graphics for tees and caps combine visual storytelling with a strong sense of style.

From bold typographic statements to detailed illustrations, each design considers the garment, the placement and the way it is worn. Colour and composition connect the artwork to the overall look.

GLOBAL SOUVENIR PRODUCTS DESIGN & GRAPHICS

GLOBAL DESTINATIONS / PRODUCT DESIGN / GRAPHICS

A world of places. A language of design.

From New York and Los Angeles to Amsterdam, Barcelona and Paris, destination graphics turn familiar landmarks into everyday keepsakes. Typography, illustration and colour give each city its own character.

Across apparel, headwear, drinkware and bags, a shared visual language connects the collection. Each design adapts to the product while keeping the spirit of the destination in focus.

PROFESSIONAL EVOLUTION - CRAFT TO AI

DESTINATION GRAPHICS / APPAREL / ACCESSORIES

Craft at the core. New tools in the process.

Typography, illustration and composition remain the foundation. AI expands the space for visual exploration, helping ideas take shape across apparel, accessories and destination collections.

The evolution is in the process: combining a trained eye for detail with new ways to develop concepts, explore variations and build a consistent visual language.
